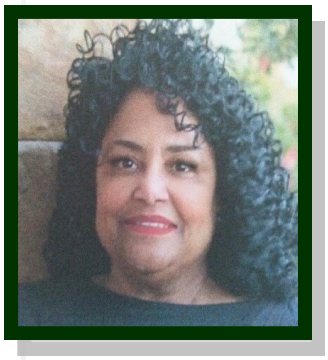
Meet the Resident Advisory Committee

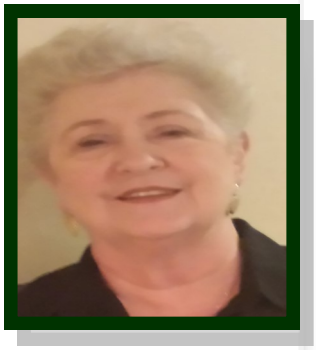
Kevin Cox

Fonzel Anderson



Billie Henderson

Pat Perryman



Genevie Williamson

We would like to welcome the new members of the Resident Advisory Committee.

The Resident Advisory Committee is a five member committee which are all Heartland Residents. The purpose of the Committee is to provide, as requested, advisory assistance to the Board of Directors and the Manager of the Heartland Community Association on matters involving community needs, community rules, and potential community amenities. They are very excited to be serving in this voluntary role in the community.

Heartland 2018 Bake Boss

Heartland 2018 Bake Boss Contest Winner:

Joshua St. John

Once Joshua heard about the Heartland Bake Boss Contest he knew he wanted to be crowned Bake Boss of Heartland! Joshua says he has baked for family and friends for years, but wanted to produce something special for his first Bake Boss competition. The competition was tough as seven other Heartland residents came with amazing baked goods.

Joshua's winning cake was a deliciously baked cake that featured a lot of Oreos!

Joshua mixed Oreos into the batter for that cookies and cream taste, he also mixed the Oreos into the buttercream frosting which filled the middle layer of the cake. Joshua finished off the top of the cake with Oreos as well. The cake top carrot was made of buttercream while the rabbit and fence were made of fondant.

Joshua says most people love to decorate with fondant but not eat it, however, the St. John family loves fondant so the rabbit and fence made of fondant did not go to waste. Joshua named his winning cake "Oreo Treasure" Congratulations Joshua St. John!

Timely Tips for April Gardeners from Calloway's and Cornelius

April means "to open" or "opening", in allusion to it being the season when trees and flowers begin to "open". This is the month of rebirth and hope for the future. April means Spring so; get out your gardening tools and get moving. Calloway's and Cornelius Nursery are fully stocked with all kinds of plants and products for every purpose for today's gardeners. Consider adding Native Plants such as Texas Sage, Red Yucca, and Mexican Heather to your landscape. Native plants are perfect for our Texas Summer heat better than most, require less water, require less mowing, provide habitats for birds, butterflies and other wildlife, protect the soil, and save on fertilizes and insecticides.

A successful garden begins with good soil. Organic material is important to the soil composition. It helps with drainage and increases the microbe population. Expanded shale is used to break up hard compacted clay soils. Top dress your flowerbeds and containers with organic mulches.

Hopefully you have your tomatoes, peppers, squash, and other warm season vegetables already planted; if not get them in the ground right away. To get the highest yields, make additions of fertilizer (called side dressing) every couple of weeks, starting about a month after transplanting or seeding. If your yard is too small for a traditional garden plot, try gardening in containers. The bigger the container, the better!

If you want to create a truly dynamic garden, inviting colorful guests like butterflies and hummingbirds is definitely the way to go. Butterflies like sunshine and plenty of space to fly around, so opt for a sunny, open spot. Both enjoy having some type of cover as a resting spot. Your garden can even include a water feature for butterflies and hummingbirds to play in.

St. Augustine and Bermuda lawns should be actively growing now; so it is a great time to apply fertilizer. Please consult one of our Texas Certified Nursery Professionals for the best advice for your lawn. A correctly fertilized lawn now will better help your lawn to handle the Texas Summer heat!

What constitutes Noise?

Noise means different things to different people.

A dog that barks continuously. A radio or stereo being played too loud from the home or open garage. The revving of a car engine.

A noise is considered a public nuisance if the act unreasonably interferes with another persons' enjoyment of their property and is obnoxious, persistent or excessively annoying.

By the Orders Of Kaufman County Municipal Utility District, "No person shall make, generate or continue any loud or disturbing noise which substantially impairs the enjoyment of common or private property and is offensive to persons in the vicinity of the noise."

It is always best when neighbors work together and communicate any noise issue that may arise. For general instances, most neighbors do not intentionally try to make excessive noise. Truth be told, neighbors may simply be unaware that the noise they create is bothersome to anyone. A friendly chat will, in most cases, take care of any noise issue that may arise.

However, if communicating with your neighbor in a polite manner does not rectify the matter you may contact the Crandall Police Department (non-emergency number) at 972-427-3767 as they enforce Heartland's city ordinances.
